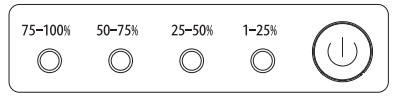
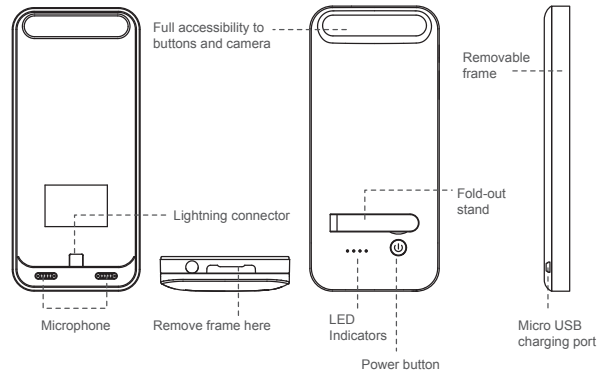
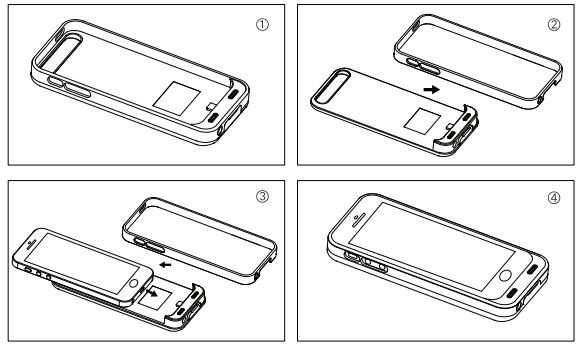
LED Indicators



Overview



Installation



Installation

- Installation: Remove the frame and place the iPhone into the battery case, then replace the frame.
- Uninstalling: Gently remove the frame with your fingernail.

Notes

- When the iPhone battery is fully drained in the battery casing, the iPhone charging icon will revert to its normal indication.
- The battery includes a USB cable. Use the provided USB cable to charge your battery.
- If your DC connector of the headset cannot be plugged in, the please use the audio cable.

Charging your battery and iPhone 5:

- Connect your battery (iPhone already installed) to the USB charging cable.
- Connect the USB charging cable to any USB power source such as computer to start charging.
- Charge until the LED indicators read full.

Charging your iPhone 5 with the battery:

- Press and hold the power button (about 3s) to charge your iPhone without connected external USB power sources.
- Press and hold the power button again (about 3s) to turn off the battery when the iPhone is fully charged.
